UCEAP Course Suffix
UCEAP Official Title INTRODUCTION TO PROGRAMMING
UCEAP Transcript Title INTRO PROGRAMMING
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description
This course teaches students the basic structures and syntax of the common programming/scripting language Python. It covers the fundamental programmatic methods applicable to various tasks of data analysis for both students' own scripts and for bridging the gap between the existing tools. This course focuses on the project-oriented uses of Python to equip students with strong transferable skills that they can extend into the areas outside academia.

Language(s) of Instruction
English
