**Course Description**

The course deals with themes of Lyon's urban history (by urbanization, space, public squares, housing, architecture, places of worship, trade and commerce, the ways of life of the inhabitants and their relationship with the Rhône and Saône rivers). Comparisons are made with other cities. Finally, the course covers the city’s cultural institutions in charge of transmitting memory and urban heritage (museums, archives, etc.) and includes field study sessions. Through the approach of social history, the course presents the two-thousand-year history of the city, from its origins to the present day, with emphasis on certain particularly decisive moments in the construction of space, the transformations of urban activities, and ways of life.
