

## COURSE DETAIL

### VEGETAL BIOLOGY

**Country**

France

**Host Institution**

University of Bordeaux

**Program(s)**

University of Bordeaux

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Biological Sciences

**UCEAP Course Number**

124

**UCEAP Course Suffix****UCEAP Official Title**

VEGETAL BIOLOGY

**UCEAP Transcript Title**

VEGETAL BIOLOGY

**UCEAP Quarter Units**

3.00

**UCEAP Semester Units**

2.00

**Course Description**

In this course, students study the different types of plant tissue and how they assemble into organs to build the plant. The course covers the following topics: the specifics of the plant cell, plant tissues (trade and communications), the organs of higher plants (root system and shoot system), and the development of a seed plant (organogenesis, and meristems primary and secondary growth).

**Language(s) of Instruction**

French
