3.00

**UCEAP Semester Units**

2.00

**Course Description**

This course applies theoretical tools, scientific evidence and policy examples to contextualize and problematize, from a gender and interdisciplinary perspective, social gender relations in a context of inequalities, in an effort to understand the manifestation of sexist violence and ways to overcome it. The first course module provides basic concepts of gender theories, a historical analysis of the movements of international women and in Chile from a feminist economic perspective. The second module analyzes the various expressions of gender violence.
