INTERIOR DESIGN 3C: EXTERNALITY
Country United Kingdom - Scotland
Host Institution University of Edinburgh
Program(s) University of Edinburgh
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Art Studio
UCEAP Course Number 101
UCEAP Course Suffix
UCEAP Official Title INTERIOR DESIGN 3C: EXTERNALITY
UCEAP Transcript Title INTERIOR DESIGN 3C
UCEAP Quarter Units 8.00
UCEAP Semester Units 5.30

Course Description
This course will build upon earlier knowledge to advance previously developed skills in material specification and awareness of construction detailing. Working with external professionals involved in material specification, and/or manufacturing, construction and detailing, students will test their conceptual design ideas in a rigorous and realistic manner through a series of technical detailing exercises. Through in-depth investigation and analysis of properties, usage, installation and detail, construction methods and costs, students will develop an enhanced understanding of the appropriate selection and use of available materials. Students will research building products and materials, through analysis of case studies, explored through model making and drawing. Research gathering will include samples and detail models, alongside written and drawn observations. This body of research will result in a group resource of shared knowledge, to inspire and provoke individual subsequent bespoke detail design solutions.
