4.00

Course Description
This course explores the key components of the global politics of health and disease: health security, global health governance, inequality, and the political economy of health. The course examines the actors in global health, right to health, equality, and contemporary global health issues, such as Ebola, Zika, and HIV/AIDS. Students have the opportunity to attend a range of global health events in London, such as film screenings, talks, and career events.

Language(s) of Instruction
