Course Description

This advanced course examines the political economy of East Asia. It treats East Asia as a political-economic space beyond the boundaries of individual countries, and pays equal attention to the past and the present. The course covers a wide range of topics, including the silk road, the tributary system, the circulation of money, the political economy of colonialism, migration and diaspora, the adoption of modern state system, the developmental state, regional production networks, East Asian regionalism, and the rise of China.
