UCEAP Semester Units
3.00

Course Description
This course considers the end of globalization, the decline of America, and the end of Western dominance over global affairs with a focus on international regimes and hegemonic stability theories. The current global system has been designed as a consequence of US leadership. The rise of another power or the decline of US leadership may change international institutions. The intellectual approach in this class is cross-disciplinary framework which gathers international relations, economics, history, and political thought.
