Course Description

This course presents language development obstacles for infants and preschool children. The class introduces main phonetics, semantics, grammar, and usage as developmental processes for children and some common disorders for language processing. The course also covers language assessment of young children and introduces ways of reclamation, and the importance of early intervention for language disorders. Texts: Reed, V. A. (2012) An Introduction to Children with Language Disorders; Bernstein, D. K. , Tiegerman-Farber, E. (2009) Language and Communication Disorders in Children. Assessment: oral report (5%), assignments (8%), participation (13%), midterm exam (28%), final exam (28%), report (18%).
