N

UCEAP Official Title
LANGUAGE, MIND, AND BRAIN

UCEAP Transcript Title
LANGUAGE/MIND&BRAIN

UCEAP Quarter Units
8.00

UCEAP Semester Units

5.30

Course Description

The course introduces students to the foundational concepts in the study of language from the perspective of cognitive science. It explores questions that are still a matter of debate in the field, critically evaluating both evidence and arguments. Students develop a deeper understanding of how language works, some of the principles governing the complex interactions between language and other cognitive dimensions (such as attention, perception, and thought), and a basic understanding of how language functions in the brain.

Language(s) of Instruction
English
