4.00

Course Description

This course reflects on contemporary issues through the lens of the political history of the last century. Political history is a broad term and incorporates social, economic, and cultural actors. The 20th century is analyzed through three angles: wars and types of war; collective utopia and individual rights; and human security and insecurity. The course examines how a multi-pronged inquest into security and the defense of human rights forged our 21st century.

Language(s) of Instruction
French
