Course Description

This course provides an introduction to the basic principles and areas of application of public international law. The course consists of weekly lectures and interactive seminars designed to provide a solid understanding of the most important rules and principles of international law. Additionally, the course covers the place of international law within the international (legal) system. The course covers the most important topics in international law such as sources, subjects, jurisdiction and immunities, peaceful dispute settlement, collective security and the use of force, law of the sea, and environmental law by reviewing the basic rules and general principles and critically analyzing their application to contemporary problems in international relations.
