UCEAP Course Suffix
UCEAP Official Title FIELD METHODS FOR EXAMINING SOCIO-ECOLOGICAL SYSTEMS
UCEAP Transcript Title FIELD METHODS
UCEAP Quarter Units 2.50
UCEAP Semester Units 1.70

Course Description
This course examines different methods for studying wildlife species, communities, and their habitats. It uses a range of social science methods including standard qualitative and quantitative methods. This course explores methods for documenting local environmental knowledge and change and it discusses culturally appropriate, ethically-sound, and environmentally sustainable field studies. This course offers a combination of lectures, discussions, labs, and field activities to develop research skills relevant to sustainability and environmental conservation.
