Course Description

This course provides a fundamental knowledge of important sociological theories and approaches in order to analyze current political and economic conditions. It introduces important societal conditions and issues of a political and economic nature, including social conflicts, political movements, finance, crisis, debt, work, consumption, integration, management, and organizations. The course presents sociological approaches to the analysis of these issues and encourages analysis and reflection on society at a local, national, regional, and global level, as well as considering the role of individuals or groups in society. The course focuses on working with different forms of empirical data as well as recent research literature.
