UCEAP Transcript Title FORENSICS: ARCOL
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description
This course explores the archaeological techniques of search, recovery, and analysis in a forensic context. The course provides an introduction to human skeletal analysis, search and excavation, DNA and forensic testing, the criminal justice system, and the archaeology of human death. Students gain hands-on experience in the excavation, recovery, and analysis of human skeletal material and associated evidence at a simulated crime scene.
