COURSE DETAIL

HUMAN COMPUTER INTERACTION ANALYSIS
Country Sweden
Host Institution Lund University
Program(s) Lund University
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Computer Science
UCEAP Course Number 126
UCEAP Course Suffix
UCEAP Official Title HUMAN COMPUTER INTERACTION ANALYSIS
UCEAP Transcript Title HUMAN-COMP INTERACT
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description
The course covers central ideas within the area of human-computer interaction, as well as theory and methods. The course also covers questions of methods that concern the planning and carrying out of studies in the context of construction/design of a program/system and the evaluation of such. During the course, the following topics are addressed: user-centered design perspectives on human-computer interfaces; design of information systems and interaction; interaction models for different types of computer application; standards and guidelines for dialogue construction; reflection on system development trends; methods and techniques for analysis and evaluation.
