Course Description

This course provides in-depth understandings about human development within diverse layers of environment including family, school, work and community. In particular, this course provides comparative perspective by offering information about Korean socio-cultural, and family contexts and their relationship with human development. For this purpose, this course first gives knowledge about developmental and family theories explaining human development within contexts. Second, the course explores human development through prenatal period to adulthood. Lastly, diverse environmental contexts around developing human beings is discussed.
