

# COURSE DETAIL

## PERMAFROST AND ENVIRONMENTAL CHANGE

**Country**

United Kingdom - England

**Host Institution**

University of Sussex

**Program(s)**

University of Sussex

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Geography Earth & Space Sciences

**UCEAP Course Number**

131

**UCEAP Course Suffix****UCEAP Official Title**

PERMAFROST AND ENVIRONMENTAL CHANGE

**UCEAP Transcript Title**

PERMAFROST & CHANGE

**UCEAP Quarter Units**

12.00

**UCEAP Semester Units**

8.00

**Course Description**

Permafrost and Environmental Change (PEC) is a 30-credit module that examines present and past permafrost regions from an interdisciplinary perspective, linking permafrost science with physical geography, geology, ecology and Quaternary science. After introducing the general nature of permafrost regions and their vegetation and soils, PEC examines several important themes spanning scientific, engineering and resource issues, focusing particularly on the Arctic and mid-latitudes.

**Language(s) of Instruction**

English

**Host Institution Course Number**

F8023A

**Host Institution Course Title**

PERMAFROST AND ENVIRONMENTAL CHANGE
