SOC OF MIDDLE AGES

UCEAP Quarter Units
6.00

UCEAP Semester Units

4.00

Course Description
Much sociological theory has developed to understand the modern – what it is, and how it came about. For this reason, it has tended to focus on a rather narrow range of societies. But sociological theory can be at its most useful when applied to societies that are very different from the current society, by making them understandable according to the same analytical frameworks. This course uses these frameworks to understand the Middle Ages. It explores issues central to social and political relations.

Language(s) of Instruction
English
