UCEAP Course Suffix
UCEAP Official Title MIGRATION AND HEALTH
UCEAP Transcript Title MIGRATION & HEALTH
UCEAP Quarter Units 8.00
UCEAP Semester Units 5.30

Course Description
The course introduces students to current knowledge on and experiences with providing health and access to health care for migrant populations. The purpose of the course is to provide participants with an insight into the relation between health and migration as well as gain knowledge about issues and possible solutions for ensuring access to health and health care for migrants. Cases mainly from Denmark and other European countries are used to describe and discuss the following: terminology, categorization, and operationalization of concepts; research methodologies and research ethics, health determinants prior to, during and after migration, morbidity and mortality patterns in migrant populations; formal and informal barriers in access to health services; migrant populations' experiences in seeking health care; health professionals' experiences in providing health care to migrant populations.
