UCEAP Subject Area(s) Psychology
UCEAP Course Number 147
UCEAP Course Suffix
UCEAP Official Title BIOLOGICAL PSYCHOLOGY OF MENTAL HEALTH
UCEAP Transcript Title BIO PSY/MENTAL HLTH
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course examines the biological underpinnings of selected mental health conditions. Topics include addictions, anxiety disorders, attentional disorders, dementias, eating disorders, mood disorders, and psychosis. Clinical observations, human experiments, genomic investigations, and studies using animal models may be used to illustrate the relationships between altered cognitive-behavioral states, biochemical processes, and functional neuroanatomy. The biological implications of therapies for mental health conditions are also discussed.
