UCEAP Semester Units

3.00

Course Description

This course introduces various topics in macroeconomics such as measurements, business cycles, effects of policies, and long-run growth to first year undergraduate students. In particular, this course develops basic but formal macroeconomic frameworks step by step. The ultimate goal of this course is to help students understand key macroeconomic questions such as “Why does an economy grow over time?” and “What happens and what should we do when the aggregate economy fluctuates?"

Language(s) of Instruction
English

Host Institution Course Number
