COURSE DETAIL

GLOBAL CHALLENGES AND SUSTAINABLE FUTURES
Country Sweden
Host Institution Uppsala University
Program(s) Uppsala University
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Environmental Studies Earth & Space Sciences
UCEAP Course Number 107
UCEAP Course Suffix
UCEAP Official Title GLOBAL CHALLENGES AND SUSTAINABLE FUTURES
UCEAP Transcript Title SUSTAINABLE FUTURE
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

With accelerating trends such as climate change, water scarcity, energy depletion, social injustice, economic crisis, resource wars, and other challenges, there is a growing need for sustainable alternatives. This course connects guest lectures that describe the severity of the challenges, workshops that discuss the possible sustainable responses, and solutions to those challenges within the context of a specific global city or region. Students have the opportunity to link global challenges to their own local and cultural backgrounds through case studies.

Language(s) of Instruction
English

Host Institution Course Number
1MV071
