COURSE DETAIL

POPULATION AND COMMUNITY ECOLOGY 3
Country United Kingdom - Scotland
Host Institution University of Edinburgh
Program(s) University of Edinburgh
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Biological Sciences
UCEAP Course Number 112
UCEAP Course Suffix
UCEAP Official Title POPULATION AND COMMUNITY ECOLOGY 3
UCEAP Transcript Title POPL&COMMNTY ECOL 3
UCEAP Quarter Units 8.00
UCEAP Semester Units 5.30

Course Description

This course explores the interactions between organisms, the dynamics of populations, and the environment. It deals with animal, plant, and pathogenic organisms, and the structuring and function of communities and develops both a quantitative and qualitative understanding of interactions between organisms and their consequences. The course is broken down into three parts: population biology, species interactions, and community ecology, and it consists of lectures and several extended practicals lasting two to three weeks.

Language(s) of Instruction
English

Host Institution Course Number
BILG09009

Host Institution Course Title
