Course Description

The course covers basic concepts and theories of contemporary debates and issues in security affairs of Northeast Asia. The course studies basic concepts, theories and logic that are useful for making sense of contemporary security issues. It then surveys several important issues in regional security with frequent use of recent historical examples. Topics include realism and military security; liberalism and cooperative security and arms control; constructivism and human security; domestic politics and international security; hegemony and military security; coercive diplomacy; alliances in northeast Asia; US-China competition; Japan`s security policy; North Korea`s nuclear challenge; Rok and peace in the Korean peninsula; and the US grand strategies and the future of NEA regional order.
