Course Description

This course includes an introduction to cognitive neuropsychology and foundations of neuroanatomy, neurology, and neuroradiology; a discussion of cognitive neuropsychology of the agnosias, aphasias, alexias, agraphias, apraxias, and amnesias; and an over view of cognitive neuropsychology of the executive functions. The course covers the normal cognitive architecture, by means of the study of brain-damaged patients. The course requires a basic knowledge of psychobiology and cognitive psychology as a prerequisite.
