UCEAP Course Suffix
UCEAP Official Title ADVANCED SOCIAL PSYCHOLOGY AND SOCIAL NEUROSCIENCE
UCEAP Transcript Title ADV SOC PSYCH&NEURO
UCEAP Quarter Units 5.00
UCEAP Semester Units 3.30

Course Description

This course studies diverse social psychological phenomena that have been examined in the context of neuroscience, with particular attention to decision-making, aggressive behavior, status, dominance, and racial bias/discrimination. In doing so the course (1) studies diverse systems that are involved in the study of social neuroscience (structural/anatomical, neuroendocrinological,); (2) critically considers the methodological approaches used to study the associations between neurological systems and social behaviors/attitudes; and (3) evaluates the theoretical contributions of these approaches and studies. Students are expected to develop critical scientific reasoning skills, in addition to a knowledge base in this area. Students are required to have completed at least one social psychology course, and at least one course in neuroscience and neuroscience methodology, as prerequisites.

Language(s) of Instruction
English

Host Institution Course Number
