6.00

UCEAP Semester Units

4.00

Course Description

To explore the complex history of African polities, this course situates the post-colonial state in its social context and uses several case studies, such as the Sudan, Congo-Kinshasa, Ghana and Guinea, to examine it from a range of perspectives. We will look at how warfare, disease, financial concerns, and other factors have shaped post-colonial statehood in Africa and how Africans have responded to the policies their states have pursued.
