Course Description

This course enables students to reflect on the role of information in shaping today's society and information professions by learning about relevant social, societal, and ethical trends and perspectives, and to consider what information professionals and scholars can therefore do to affect, and hopefully improve, society. Possible course topics include core concepts values in library and information science, information and data ethics, fake news and censorship, surveillance and cybercrime, artificial intelligence, globalization, digital sovereignty and regulation, sustainability, and equity and diversity. Seminars consist of student presentations, discussion activities, and writing tutorials.
