Course Description

The politics in Western Europe has been in turmoil in the recent years as exemplified by the Brexit and the rise of populist and challenger parties. This course discusses various topics in the field of comparative politics in Western Europe, ranging from the rise of populist and challenger parties, Euroscepticism, increasing electoral volatility across elections, the implications of holding multiple elections including the European ones. This course examines recent events and topics in the theoretical and conceptual framework developed in the field of comparative politics to understand the findings produced in empirical researches.
