A

UCEAP Official Title

THE ECONOMY OF IRELAND

UCEAP Transcript Title

ECONOMY OF IRELAND

UCEAP Quarter Units

4.00

UCEAP Semester Units

2.70

Course Description

This course focuses on how various pressures and policies have shaped the development of the Irish economy over time. This is achieved by connecting the forces at work that influence the Irish economy, from local to global, and the options available to policymakers to the outcomes of interest. Policy options include fiscal, monetary/macro-prudential, and trade-related policies, while the “success metrics” of relevance to Irish policymakers include income, population, employment, inequality, and prices.
