UCEAP Course Suffix
UCEAP Official Title RESEARCH METHODS & STATS I
UCEAP Transcript Title RESRCH METHOD&STATS
UCEAP Quarter Units 4.00
UCEAP Semester Units 2.70

Course Description
Research methods are central to the undergraduate curriculum in many subjects and disciplines. This course introduces students to the basic principles underpining research enquiry in psychology. Students learn about commonly used quantitative and qualitative methodologies and designs. In addition, the course introduces students to basic descriptive statistics, for example levels of measurement, properties of the normal curve, measures of central tendency, and variation and correlation. Students should note that a key feature of this course is attendence and participation in classroom discussion and skills-based activities related to the learning outcomes.
