COURSE DETAIL

HORMONES & BEHAVIOR
Country United Kingdom - England
Host Institution University of Manchester
Program(s) University of Manchester
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Biological Sciences
UCEAP Course Number 167
UCEAP Course Suffix
UCEAP Official Title HORMONES & BEHAVIOR
UCEAP Transcript Title HORMONES & BEHAVIOR
UCEAP Quarter Units 4.00
UCEAP Semester Units 2.70

Course Description

This course defines how endocrine and brain circuits control sexual, affiliative, and aggressive behavior. Students are introduced to comparative examples from the animal kingdom and underlying genetic mechanisms, as well as neuroendocrine circuits and peptide relays in the brain. Where possible, examples are drawn from the medical literature to indicate the common nature of these processes in our own species, and governing our behavior.

Language(s) of Instruction
English

Host Institution Course Number
BIOL31721

Host Institution Course Title
HORMONES & BEHAVIOUR
