

COURSE DETAIL

CELL BIOLOGY AND DEVELOPMENTAL GENETICS

Country

United Kingdom - England

Host Institution

University of London, Queen Mary

Program(s)

University of London, Queen Mary

UCEAP Course Level

Upper Division

UCEAP Subject Area(s)

Biological Sciences

UCEAP Course Number

109

UCEAP Course Suffix**UCEAP Official Title**

CELL BIOLOGY AND DEVELOPMENTAL GENETICS

UCEAP Transcript Title

CELL BIO&DEV GENETC

UCEAP Quarter Units

6.00

UCEAP Semester Units

4.00

Course Description

This course covers cell biological techniques; the structural organization, development, and differentiation of eukaryotic cells; and processes in development that are based on cell-cell interactions and cell movements. Students learn standard cell biological techniques in histology and immunohistochemistry, and become familiarized with the preparation of cell material from living organisms.

Language(s) of Instruction

English

Host Institution Course Number

BIO213

Host Institution Course Title
