Course Description

The course discusses the main aspects and trends of the world economy during the 20th and early 21st centuries. At the end of the course students understand the origin of the most important economic institutions and the features of the economic cycles so far experienced by the world economy. Topics addressed in more detail include the failure of the command economies, the construction of the European Union, the evolution and transformation of financial systems, globalization, and the regulation of the labor market in different countries.
