**UCEAP Semester Units**

3.30

## Course Description

This course offers a study of ethology and evolution of behavior. It analyzes the relative importance of different ecological and social factors that shape behavior, as well as how evolution and adaptation contribute to the development of individual and social behavior. Through evolutionary reasoning, it examines the socio-spatial, sexual, and reproductive behavior in the human species and in other animal species.

## Language(s) of Instruction

### Host Institution Course Number

361019

### Host Institution Course Title

ETOLOGÍA Y EVOLUCIÓN DE LA CONDUCTA
