DISEASE ECOLOGY

Country
United Kingdom - Scotland

Host Institution
University of Glasgow

Program(s)
University of Glasgow

UCEAP Course Level
Upper Division

UCEAP Subject Area(s)
Biological Sciences

UCEAP Course Number
113

UCEAP Course Suffix

UCEAP Official Title
DISEASE ECOLOGY

UCEAP Transcript Title
DISEASE ECOLOGY

UCEAP Quarter Units
8.00

UCEAP Semester Units
5.30

Course Description
The course explores the ecological processes that influence disease patterns in natural populations. The course covers topics relating to the dynamics of infectious diseases and population interactions in natural ecosystems, examined in the context of emerging health risks for human, wildlife, and domestic animal populations from a diversity of ecological, socio-economic, and political perspectives.

Language(s) of Instruction
English
