UCEAP Transcript Title

CRYPTOGRAPHY

UCEAP Quarter Units

6.00

UCEAP Semester Units

4.00

Course Description

This course explores both theoretical and practical aspects of cryptography, authentication, and information security. Students learn the relevant mathematical techniques associated with cryptography, the principles of cryptographic techniques and how to perform implementations of selected algorithms in this area, and explore the application of security techniques in solving real-life security problems in practical systems.

Language(s) of Instruction

English
