UCEAP Semester Units

3.70

Course Description

This course offers an introduction to corporate law and to the legal and non-legal governance mechanisms which encourage directors to act in their company's and not in their own interests. The course sets corporate law and governance within its economic and business context, with particular regard to how corporate law and governance mechanisms facilitate or inhibit economic activity. The course adopts an explicitly comparative approach drawing on both UK, US, and continental European law.
