UCEAP Course Suffix
UCEAP Official Title LINGUISTIC APPROACH TO OCCITAN
UCEAP Transcript Title LING APPRCH/OCCITAN
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course examines the most salient aspects of Occitan and observes how the same linguistic diasystem is realized in the form of dialects with marked tonalities and musicality. This approach makes it possible to implement and extend the phonetic skills acquired for French in the first year as well as some syntax points. This course constitutes a practical introduction to Romantic studies, as Occitan is the autochthonous Romance language covering most of Southern France and the vehicle of an abundant literature.

Language(s) of Instruction
French
