## Course Description

This course examines the current sociology and political science research in globalization. The first part of the course looks at the history of globalization and discusses both the research to analyze and understand the future of globalization. The second part discusses global political and economic change and the consequences after the latest wave of globalization, with particular focus on the global production chain, the role of the nation-state, global governance, as well as the phenomenon of globalization and inequality. The third part of the course examines the impact of globalization class, gender, culture, social movements, environmental justice and health management. Assessment: class participation (50%), the final report including oral reports and written research report (50%).
