UCEAP Semester Units

3.30

Course Description

This course begins with an analysis of the Hispanic population at the time of the Conquest, examining its expectations and the degree to which these were realized. The social formation of the Americas and Chile is explored by looking at the adaptation of European institutions to the American world, and at the disciplining and integration of the popular classes to meet the demands for labor in the colonial production systems.

Language(s) of Instruction

Spanish
