UCEAP Semester Units

3.00

Course Description

French, as well as international, political life is built on quantitative data which is supposed to guide public action. This workshop proposes to familiarize students with the practice of quantitative analysis. This shows the advantages, but also the traps, inherent with quantitative analysis in public action. The students learn to collect and analyze data. Learning outcomes: to build a quantitative database and perform analyses. The course stresses reflection in the use of statistics and favors the growth of a citizen-based analysis of the data and its use.
