## Course Description

French 50 is the 11-day practicum portion of the fall program in Paris. The practicum is an intensive grammar course intended to immerse students in French language and culture and to equip them with practical skills for their semester of study and living in Paris. This 11-day course includes three-hour daily class instruction alongside a series of four afternoon excursions to introduce students to both historical and practical aspects of the city. While students learn how to speak the language, they continue their introduction to the culture of the French-speaking world. To immerse students in the language, only French is spoken in class. Although students are not expected to understand every word, they should try to follow the gist by paying attention to the context. Students find their comprehension increasing as the course progresses. The practicum sections are organized by the course levels students have been assigned for their fall semester program. In addition to the objectives stated here, the practicum introduces the preliminary material and prepares students for their semester French language course.
