DANISH NATURAL HABITATS, ECOLOGY, AND CHARACTERIZATION

# **UCEAP Transcript Title**

DAN NATURAL HABITAT

# **UCEAP Quarter Units**

6.00

#### **UCEAP Semester Units**

4.00

### **Course Description**

This course is an introduction to the Danish natural terrestrial habitats and their preconditions. It provides students with methods for describing groups of organisms (e.g. plants, fungi, beetles) and vegetation structure, deadwood and soil conditions as indicators. Students practice describing and characterizing locations using essential ecological parameters and appropriate groups of organisms.
