UCEAP Course Suffix
UCEAP Official Title DIRECTED INDIVIDUAL STUDY
UCEAP Transcript Title DIRECTED INDIV STDY
UCEAP Quarter Units 8.00
UCEAP Semester Units 5.30

Course Description
This course provides training in the use of statistical methods for the analysis of complex behavioral and physiological signals. Students develop a theoretical understanding of emotion, including its subjective, physiological, and behavioral aspects. Students learn skills in processing and analysing subjective, physiological, and behavioral data, and develop methods for the analysis of voice and motion-capture data. Students produce and share written tutorials in statistical methods, conducting research that is rigorous, clearly documented, and transparent.
