**Course Description**

This course examines the psychology of human sexuality and intimate relationships through the scientific examination of thoughts, emotions, and behavior, both individually and culturally. It looks at the biological, cognitive, emotional, and socio-historical factors that contribute to the psychology of intimate relationships and sexuality. It covers topics such as variations of sexual behavior, sexuality identity, sexuality, relationship theories, interpersonal attraction, love and partner selection, attitudes, taboos, values & morals, variations of sexual behavior, communication, conflict, infidelity, etc. It also addresses key issues with regards to the psychology of abuse and domestic violence.
