Course Description

This course introduces sociology and social science through the study of prominent social problems in the United States. It examines a diverse sample of social problems and analyzes issues of power, inequality, privilege and oppression. Topics include social stratification/inequality, crime and deviance, culture, health, environment, immigration, education, racial/ethnic conflict, gender inequality, and technology work. The course explores America's importance and uniqueness by examining both its problems and solutions to important societal trends.
