NATURAL RESOURCES

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

**Course Description**

This course, offered by the department of geography, introduces the subject of the availability of natural resources in Mexico. It provides an evaluation of their current status, potential, management techniques, environmental services, problems, and future prospects in terms of its management and conservation. Students develop a geographical analysis of natural resources through field work strategies and application of spatial analysis tools. \*Note: a similarly titled course is offered by the Facultad de Ciencias.
