UCEAP Semester Units

4.00

Course Description

This course explores significant genres, styles, and representative chamber works from the common practice period to the present day. It also covers relationships between chamber music and its socio-political and cultural contexts; the changing social function of chamber music and musicians; various performance contexts; trends in musical aesthetics; and the evolution of chamber music's languages and styles. Students undertake individual research projects on selected chamber works, and lead discussions on their chosen work in weekly seminars.
